

General Information

Scholarship Program for Students from Non-Aligned Movement Member Countries

2022

under the cooperation of

the Government of the Republic of Indonesia,

Universitas Gadjah Mada, and

the Non-Aligned Movement Centre for South-South Technical Cooperation

Introduction

Indonesia continues to increase its role and contribution to international development cooperation through South-South and Triangular Cooperation (SSTC). As founder and member of the Non-Aligned Movement (NAM), Indonesia has actively contributed to enhancing development cooperation to NAM member countries through various forms of program in a wide range of sectors, including in education sector.

Indonesia recognises the importance of advancing human development and capacities through providing educational opportunities that can give access to academic, professional and cultural experiences. Hence, the Government of Indonesia offers scholarships to individuals from NAM member countries to study for selected eligible master's degree at one of Indonesia's leading university, Universitas Gadjah Mada (UGM) in Yogyakarta, Indonesia.

The Indonesian Government-NAM Scholarships is a program jointly run by Indonesia's Ministry of Foreign Affairs, UGM and NAM Center for South-South Technical Cooperation (NAM-CSSTC). This is part of the Indonesian Government's efforts to promote international cooperation in achieving Sustainable Development Goals (SDGs) in developing countries. By bringing together professionals and scholars from NAM member countries, the scholarship program aims at promoting networks to facilitate creation and sharing of knowledge in solving local and global development challenges.

As part of its commitment to become a world-class university, UGM provides scholarships to international students of full-time Masters Degree. UGM offers, among others, Kemitraan Negara Berkembang (KNB) Scholarship Program and Darmasiswa Scholarship Program in collaboration with Indonesia's Ministry of Research, Technology, and Higher Education and Ministry of Education and Culture, and other scholarships in collaboration with development partners, such as JICA and AUN/Seed-Net (for further information, please visit www.ugm.ac.id).

As an institution that further helps developing countries to achieve their development goals, NAM CSSTC believes that the scholarship program for students from developing countries is an important means to enhance and accelerate developing countries' national development, which is in line with the NAM CSSTC's mission.

The accomplishment of this objective will contribute to the realisation of the NAM CSSTC's vision, which is to build developing countries' national capacity and collective self-reliance. Furthermore, this scholarship program will contribute to improving the quality of human resources of developing countries and achievement of SDGs, particularly Goal 8 Decent Work and Economic Growth and Goal 16 Peace, Justice and Strong Institutions.

The scholarship will offer international students with a unique experience of Indonesia's higher education institution and multicultural community. Scholarship awardees will have the opportunities to learn Indonesian language and culture and engage with the local communities they live in. International students from NAM member countries are strongly encouraged to apply for this scholarship.

Participating Countries

The NAM Member Countries Scholarship Program will be prioritized for the following eligible countries:

Bangladesh, Ethiopia, Malawi, Myanmar, Nigeria, Pakistan, Somalia, Sudan, and Syria, as well as other NAM Member countries (Please see http://csstc.org/v_ket1.asp?info=11&mn=1 for a complete list of NAM member countries).

Implementation of the Scholarship Program

Number of Scholarship Awardees

The Scholarship will be awarded to 5 (five) eligible applicants selected by the Selection Committee on the basis of a comparative assesment of application according to the entry qualifications and other criteria of merit.

Duration of Study

The Scholarship Program will be awarded for a period of study starting from February or September 2023.

Scholarships will be available for full-time study for the minimum periode required to complete the course at the UGM.

Scholarship Entitlement

The scholarship program will cover the following:

- Tuition fees
- Living allowance and dorm room
- INCULS Blended Learning package charge (including the arrival cost and Indonesian language course)
- Entrance cost for matriculation
- Tickets for international and domestic flights for student arrivals (one time round trip)
- Health Insurance
- Fees for student visas and residency permits
- Book allowance

If the scholarship recipient decides to bring family member(s) to Indonesia, please keep in mind that the scholarship only covers the costs of the student's needs.
